

WAIVER OF COLLISION DEDUCTIBLE

The California Insurance Code requires insurers to offer a Waiver of Collision Deductible if you carry Collision Coverage on any of your motor vehicles **and** if you carry Uninsured Motorist Bodily Injury Coverage. Those provisions also permit the insurer and the applicant to delete the coverage completely or to delete the coverage when a motor vehicle is operated by a natural person or persons designated by name. The Waiver of Collision Deductible option waives your collision deductible in the event of a collision involving your insured motor vehicle and an uninsured motor vehicle. This option applies only to your insured motor vehicle(s) presently covered for Collision Coverage and listed below.
